PRODUCT OF THE MONTH

THE LIFT

The Lift is a non surgical face lift which gives instant and dramatic results.

As women grow older, one common dilemma they face is how to erase some of the ravages of time and age, without going down the harsh and expensive path of plastic surgery. Now, there's the perfect solution - Eternal Beauty Product's The Lift, a non surgical face lift that is so good it's got a celebrity following of some of the world's hottest A-List

Stars. Cindy Crawford and Rachel Hunter love this product! Madonna even used it before her wedding to ensure her skin was radiant on her big day. The Lift gives dramatic results in an instant. It lifts, tones and firms leaving the complexion refined and radiant giving a younger, fresher look.

Having been used professionally by leading make up artists to the stars for many years, this exciting salon style treatment is now available to use at home, to achieve the same dramatic results.

The Lift is an easy to use mask of mineral powders, fruit extracts and enzyme boosters and works by gently stimulating circulation and increasing blood supply, to help restore muscle tone and elasticity for instantly noticeable lifted firmer skin. It has not been tested on animals.

To complete this treatment, The Lift Finishing Creme is applied directly after. This ultra! moisturising formula

leaves your skin beautifully soft and perfectly balanced. The Lift is the perfect pick me up and delivers that fresh faced glow every woman desires.
