

# September News!

## SPRING SKIN TIP

Coming in the beautiful sunny spring days, its even more important to apply a sunscreen. Sunscreen plays an important role in skin protection and prevents us ageing quicker than we are meant to! Make it a part of your morning routine - wash, moisturise and apply at least an SPF 30+!

## LASH OUT IN SPRING!

At the beauty temple this we believe the "Eyes have it".

Ever wanted longer and thicker eyelashes?

Do you wear mascara? Well, do you want to stop wearing it?

You can!

Permanent eye lashes give immediate results of longer, thicker lashes. Each lash is grafted to an individual eyelash by one of our Lashperts! They vary in length, up to 16mm and are safe on your own lashes. They look natural and are soft & waterproof being made from silk fibres. The results are immediate & spectacular! Lash out in spring and come in to see our Lashperts today, or call to make an appointment.
